

Reservoir No.1 and Energy Recovery Facility Project

The City of Nanaimo is replacing the old open-air Reservoir No.1 with an enclosed reservoir on the site indicated here to store treated water from the future Water Treatment Plant.

Construction

Phase 1 New pipeline and clearing of future reservoir site.

Timeline summer – spring 2013

Phase 2 New reservoir and energy recovery facility (ERF).

Timeline winter 2013 – spring 2014.

Project Budget \$11.2 Million

UBCM Gas Tax Grant Funding \$7.7 Million

Environmental and Public Benefits

- *Protection of drinking water quality*
- *Reduction of greenhouse gas emissions.*
- *Action towards becoming a carbon neutral community by generating enough electricity to power 60 - 70 homes.*
- *The provision of fire protection and emergency storage for the City.*
